The boys competed in a Trans Tasman Competition in all 4 levels and we are pleased to announce that they won the competition. Unfortunately they were not presented with the trophy in Australia as initial calculations had the Australians winning. It was only after our later analysis of results that it was discovered that a vault mark from the final day of competition was mysteriously missing.

The trophy is on its way across the Tasman with a nice big bow around it. It will be up for grabs again when they compete for it again at our National Championships in September.
